

# Instructions for completing the window mosquito net order form

The form should be filled out in the following way:

In the field marked **Order number / Company**, enter the name of your company and the consecutive order number for the current year, e.g., MOSKITO 2/2014.

In the field marked **RAL colour of mosquito net**, enter the desired frame color, e.g., white, chocolate, Nut brown, or RAL designations such as 9016, 8017, 8028, etc.

In the **Width mm** and **High mm** fields, enter the door frame dimensions in millimeters, e.g., Width: 980, High: 2198.

In the **Quantity** column, specify how many pieces of a given dimension are to be manufactured.

In the field marked **Mesh colour**, enter one of the following options depending on the required mesh. Grey mesh: enter **GRY**, Black mesh: enter **BLCK**, Aluminum mesh: enter **ALU**, Steel mesh: enter **STL**.

In the field marked **PVC profiles / Wood**, enter the type of window profile or, if the window system is known, its name, e.g. Veka Perfectline, Drewno STOLBUD. This field can also be used to provide additional information, such as the use of an additional sealing brush or a movable crossbar. If the mosquito net is ordered for a wooden window, it is also useful to specify the measurement method, whether it was made in the opening or up to the drip cap.

In the field marked **Rebate**, enter the thickness of the rebate together with the seal in millimeters. This information is needed to select the appropriate size of the mosquito net plate.

Do not fill in field marked with  $\emptyset$ .

In the field marked **Method of preparation**, enter Standard PVC, Standard 45, Exclusive PVC, Exclusive 45, Universal PVC, Universal 45, depending on the profile to be used for the production of the mosquito net and the type of corner to be used.

**The file should be saved as an Excel file and sent to [produkcia@moskitosystem.com.pl](mailto:produkcia@moskitosystem.com.pl)**
